

XTIVIA INTELLIVERED

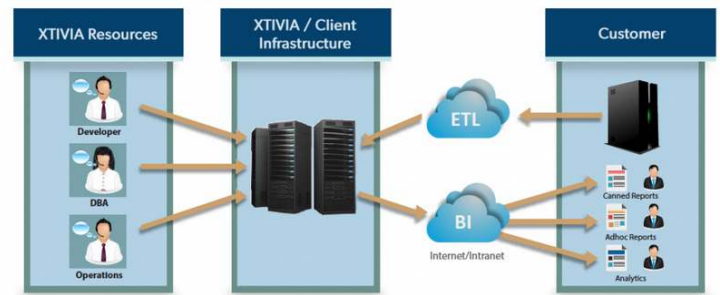

OVERVIEW

XTIVIA on-demand Business Intelligence enables business of all sizes to leverage the best-in-breed BI technologies to empower effective business decision-making. Adopting a unique “pay-as-you-use” subscription model, the XTIVIA BI SaaS offering caters to today’s information hungry corporations who do not want to make the substantial investment required of the traditional “buy-and-build” approach. BI is no longer a luxury that only the big corporations can afford – it is a necessity regardless of the size of the organization.
