

NON-PROFIT RELIGIOUS GROUP: LIFERAY 6.2 EE UPGRADE

SUMMARY

LIFERAY 6.1 EE TO 6.2 EE UPGRADE FOR A RELIGIOUS NON-PROFIT

In this project, XTIVIA helped a customer that was running an unclustered multi-tenancy Liferay 6.1 EE environment on a Windows operating system with a Microsoft SQL Server database migrate to a cloud-based Liferay 6.2 EE clustered environment on Linux with a MySQL database, and at the same time make their sites/content responsive. XTIVIA performed an assessment of the client's existing Liferay implementation and determined that the largest component of the migration effort would be content migration and making the sites completely responsive. We used the assessment to come up with a detailed migration plan and then executed against the plan, helping the client go live with Liferay v6.2 and making their sites fully responsive over a 3-month period.

XTIVIA OVERVIEW

Since 1992, XTIVIA has established a proven, global reputation as a company delivering cutting-edge professional solutions to our clients' specific requirements, regardless of the complexity of the projects. Our success has stemmed from a proven ability to deliver quality professional services, allowing the client to leverage technology successfully, competitively, and profitably. PORTAL OVERVIEW

XTIVIA offers a full suite of Liferay services—including architecture, consulting, staffing, tuning, and end-to-end project implementation. With more than 15 years of experience in portals, content management, collaboration and enterprise integration, and an undisputed record of successful Liferay deployments since 2006, it's no wonder XTIVIA is the current and three-time winner of the prestigious Liferay North America Partner of the Year award.

On end-to-end projects, XTIVIA will work with you using a team approach that emphasizes transparency and ongoing Liferay knowledge transfer to your team. You will learn not just the how, but also the why behind key Liferay implementation choices on various topics— including identity management, SSO, personalization, enterprise integration, and more.

Our proven phased approach is designed to help your company realize ROI quickly while improving both self-service capabilities and end-user satisfaction. Our top-notch software practitioners, combined with our deep knowledge of enterprise portal solutions, helps us deliver a superior product—every project, every time.
