

## XTIVIA Workato Services

### Unlock the Power of AI-Driven Intelligent Process Automation

Leverage AI-driven Intelligent Process Automation to seamlessly align your operations, workforce, and insights for enhanced performance while reducing costs. XTIVIA specializes in transforming businesses through a fusion of expertise in business processes and cutting-edge AI technologies. Our Intelligent Process Automation practice offers tailored advisory services, robust vendor partnerships, and holistic solutions to craft and implement strategic roadmaps. We meet you at the starting point of your automation journey, driving acceleration and integration within your organizational culture to deliver tangible results.

### The Need for Advanced Automation

Traditional integration platforms have standardized integration processes, enhancing agility but often lack the automation crucial for success. They demand advanced technical skills, hindering mastery. Emerging technologies prioritize business process automation with minimal coding. This shift empowers business architects to define and refine processes effortlessly. Workato leads this trend, combining integration platform features with business process automation. Its workflow-centric approach allows architects to seamlessly define and automate processes.

### XTIVIA's Expertise

XTIVIA draws upon decades of expertise in integration and automation platforms across diverse industries, including retail, finance, insurance, and more. We specialize in empowering clients to implement or refine their integration and automation capabilities using Workato solutions. Our comprehensive suite of Workato implementation services encompasses meticulous planning and analysis, software customization, data imports, data pipelines, system integration, business process automation, migration, and extensive training and support. Committed to delivering tailored solutions precisely aligned with our client's unique requirements, XTIVIA ensures that every aspect of the implementation process is carefully considered and executed. Through our proven and detailed approach to integration implementations, our clients consistently realize a multitude of benefits. This enables them to effectively differentiate their products and services in today's competitive landscape.

### XTIVIA's Workato Offerings

XTIVIA provides comprehensive support for a range of automation and integration services offered by the Workato platform, including:

- **Integration-led Automation:** Streamline integration processes to enhance business agility and efficiency.
- **Process Automation:** Automate complex business processes to reduce manual effort and increase accuracy.
- **AI Workflows:** Implement AI-driven workflows for predictive analytics, natural language processing, and more.
- **Application Integration Services:** Seamlessly connect and integrate various applications and systems.
- **Data Integration:** Ensure accurate data synchronization and transformation across platforms.
- **API Management:** Manage, monitor, and secure APIs to enhance connectivity and data exchange.
- **Event Streams:** Capture, process, and route events in real time to trigger workflows.
- **Migration Services:** Transition from platforms like MuleSoft, TIBCO, and Boomi with ease.

The table below provides a detailed overview of each of these services, highlighting their features, capabilities, and benefits for businesses leveraging the Workato platform.

### Automation

Integration-led Automation	Process/Task Automation	AI Workflows
<ul style="list-style-type: none"> <li>Workflow Automation</li> <li>Data Synchronization and Automation</li> <li>Event-Driven Automation</li> <li>Insights</li> <li>Workflow Apps</li> </ul>	<ul style="list-style-type: none"> <li>Simple Automation</li> <li>Data Synchronization</li> <li>Conditional Workflows</li> <li>Multi-step Workflows</li> <li>Approval Workflows</li> <li>Event Driven Workflows</li> <li>Process Orchestration</li> <li>Data Transformation Workflows</li> <li>Scheduled Workflows</li> </ul>	<ul style="list-style-type: none"> <li>Data Processing and Analytics</li> <li>Predictive Analytics</li> <li>Natural Language Processing</li> <li>Recommendation Engines</li> <li>Sentiment Analysis</li> <li>Process Optimization</li> <li>Automated Decision-Making</li> <li>Adaptive Workflows</li> </ul>

### Integration

Application Integration	Service Integration	Data Integration
<ul style="list-style-type: none"> <li>Open, Standards-based integration</li> <li>Technology &amp; Application Connectors</li> <li>Reliable messaging</li> <li>Service creation and consumption</li> <li>Multiple protocol support</li> <li>Mapping &amp; Transformation</li> </ul>	<ul style="list-style-type: none"> <li>Service Mediation</li> <li>Messaging Routing</li> <li>Data Transformation</li> <li>Service Orchestration</li> <li>Service creation and hosting</li> </ul>	<ul style="list-style-type: none"> <li>Querying</li> <li>Normalizing</li> <li>Data Transformation</li> <li>Real-time Integration</li> <li>Batch Processing</li> <li>ETLs and ELTs</li> </ul>
API Management	Event Streams	Migration
<ul style="list-style-type: none"> <li>Design &amp; Publishing</li> <li>Documentation</li> <li>API Versioning</li> <li>Security</li> <li>Monitoring &amp; Analytics</li> <li>Lifecycle Management</li> <li>API Gateway</li> </ul>	<ul style="list-style-type: none"> <li>Event Capturing</li> <li>Event Processing</li> <li>Event Filtering and Routing</li> <li>Triggering Workflows</li> </ul>	<ul style="list-style-type: none"> <li>From MuleSoft</li> <li>From TIBCO</li> <li>From Boomi</li> </ul>

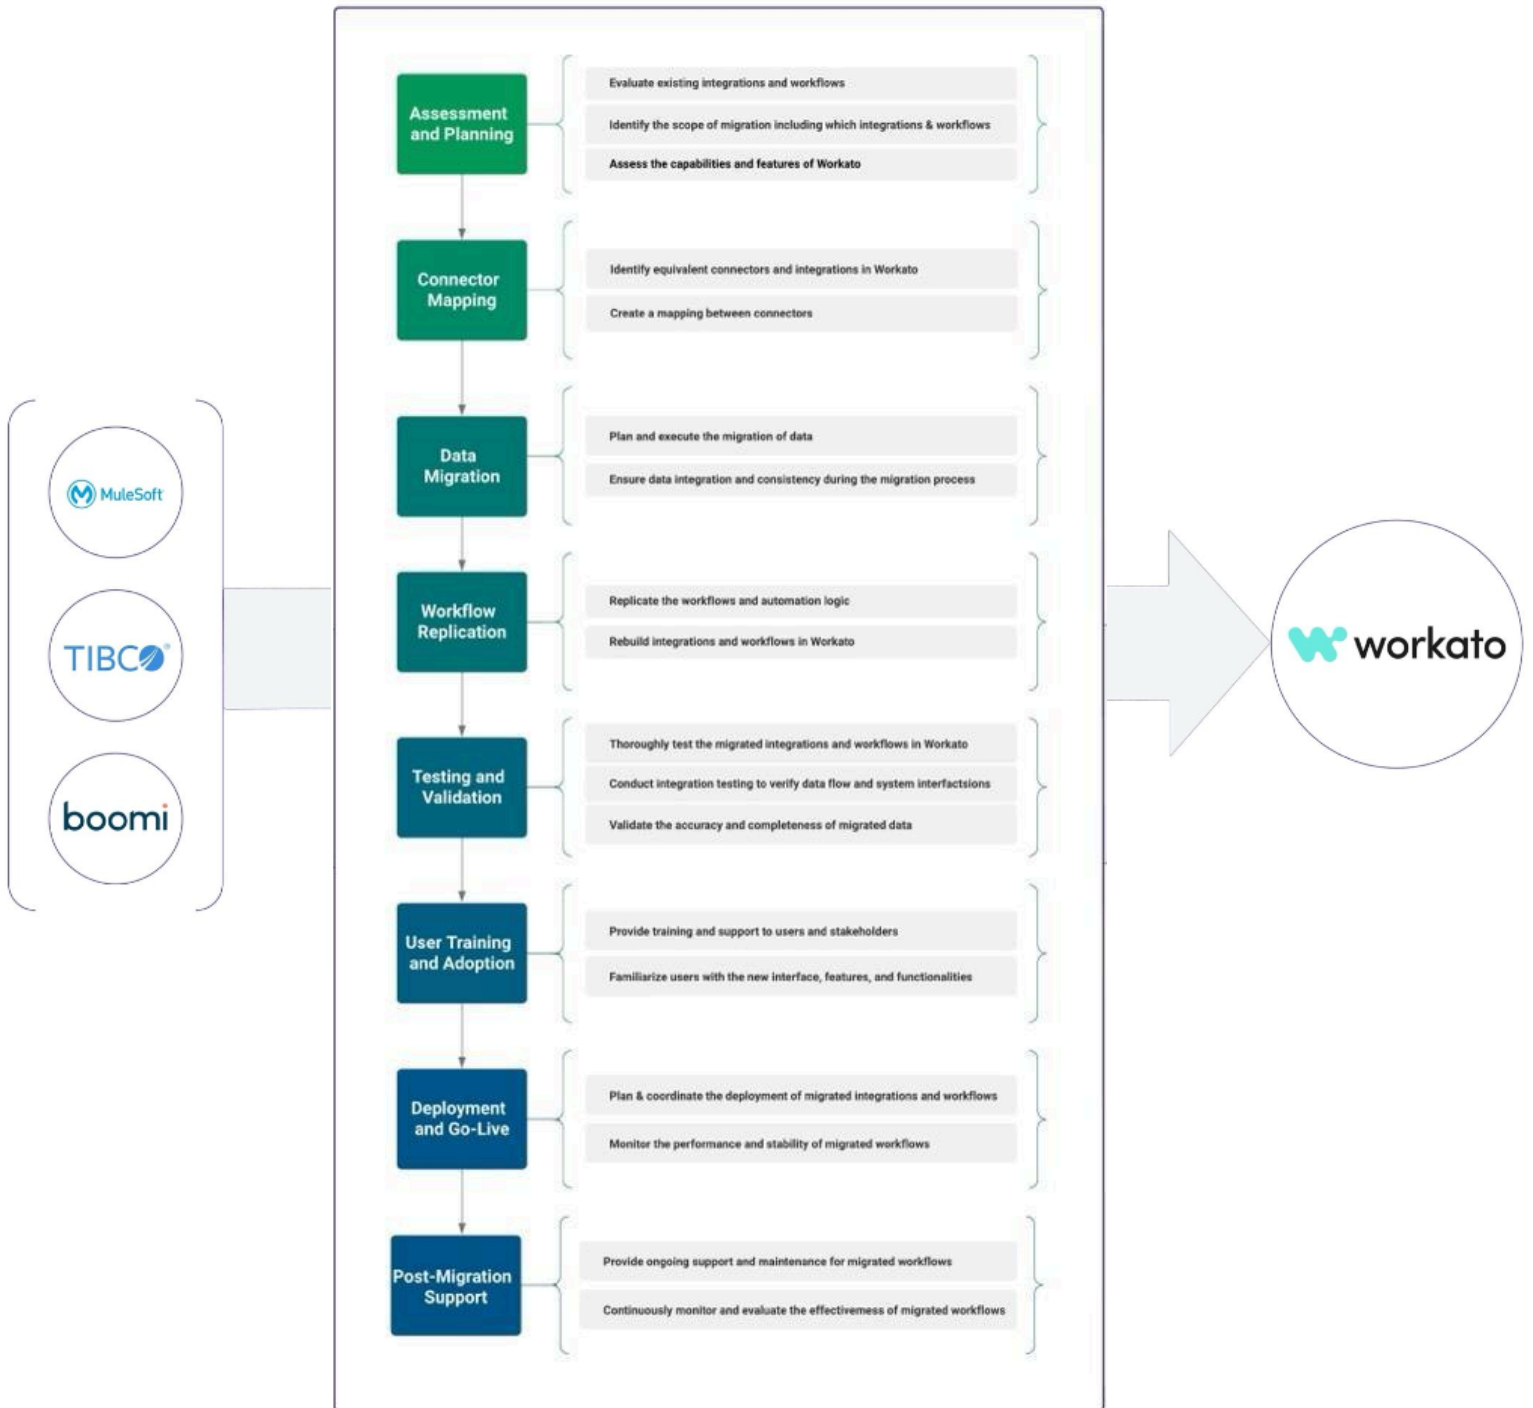

### XTIVIA's Migration Approach

For organizations seeking to transition to Workato from platforms such as MuleSoft, Tibco, Dell Boomi, and others, XTIVIA is the optimal partner. With decades of profound expertise in integration and automation, XTIVIA's adept resources boast versatile skills across multiple platforms, ensuring seamless migrations for clients.

Given the inherent disparities in programming languages and architectural frameworks across these platforms, a conventional Lift and Shift approach proves impractical. Compounded by the absence of readily

available migration tools in the market, developing such tools presents formidable challenges due to the foundational discrepancies among these platforms. Consequently, the most viable recourse lies in adopting a rebuild or replatform strategy. Fortunately, within the realm of Workato's "low-code/no-code" environment, this transition has been significantly streamlined, offering a more efficient and time-saving process.

Illustrating XTIVIA's comprehensive approach to Workato Migration, the following diagram delineates the meticulous strategy of rebuild/replatform migration, underscoring our commitment to ensuring a smooth and successful transition for our clients.

## XTIVIA Overview

XTIVIA is a proven technology integration and innovation company known for delivering leading-edge technology solutions to our client's specific requirements, regardless of project complexity. Since 1992, our success stems from a demonstrated ability to deliver deep expertise via professional services, empowering clients to successfully, competitively, and profitably leverage their chosen technology. XTIVIA has offices in Colorado, New York, New Jersey, Texas, Virginia, and India. [www.xtivia.com](http://www.xtivia.com)
