The Need

Carama is Malaysia's first online service for trusted car care with an exhaustive network of certified and listed car workshops. Carama is committed to helping car owners find a trustworthy workshop to simplify car maintenance. Carama provides car owners confidence that they have made the right decision in their choice of workshop removing uncertainty regarding maintenance costs, price, and quality of repair for their cars. Carama also provides a platform so car owners can share their workshop experience with family, friends, and fellow car owners.

XTIVIA Solution

XTIVIA worked with the Castrol innoVentures arm of British Petroleum to build out a new business offering called Carama and implemented this using a mobile-first, responsive approach on the Liferay platform.

This project was developed with a responsive mobile approach providing both public and secure content and applications leveraging Liferay features in 3 months from inception to go live.
