HEALTH INSURANCE PROVIDER: LIFERAY MIGRATION

SUMMARY

Custom home-grown Coldfusion/Java portal migration to Liferay 6.1 EE for a 3-million member health insurance provider

XTIVIA worked with a major US health insurance provider to migrate their custom, home-grown portals built using a mix of Coldfusion content pages and Java applications to the Liferay 6.1 EE platform. Our client had multiple portals addressing its key channels: Member portal, Provider portal, Sales portals, and Group portal (Employers). The hodgepodge of technologies, the lack of true content contentment capabilities, and increasing user expectations were straining the client's resources. Accordingly, the client decided to undertake an enterprise portal reengineering assignment to reengineer, portalize these applications and migrate them to the Liferay portal platform. XTIVIA was responsible for the end-to-end migration of the enterprise portal and reengineering of Web applications ensuring minimal business disruption. XTIVIA executed the migration project in multiple phases and worked hand-in-hand with the client's IT team to ensure effective knowledge transfer. As part of this long-term engagement, XTIVIA scored some quick wins by migrating to Liferay the main public site and the sales portals that were content-intensive and light in terms of application functionality. With the core high-availability Liferay environments in place, the team then focused on migrating the member portal to Liferay without reengineering each of the member applications, and then shifted focus to re-writing these applications to leverage newer technologies and deliver a more engaging, responsive User Experience (UX). Additionally in parallel, XTIVIA worked on a larger, multi-year initiative to migrate the Provider portal with extensive business process, functional, and UX reengineering.

XTIVIA OVERVIEW

Since 1992, XTIVIA has established a proven, global reputation as a company delivering cutting-edge professional solutions to our clients' specific requirements, regardless of the complexity of the projects. Our success has stemmed from a proven ability to deliver quality professional services, allowing the client to leverage technology successfully, competitively, and profitably. XTIVIA has received additional awards this year from Liferay, CIO Review and Inc. 5000. Our services and solutions include Apps, BPM, BI/DW, Big Data, Cloud, CRM, Database, Portal, Mobility and SOA. We have offices Colorado, Missouri, New Jersey, New York, and Texas.

PORTAL OVERVIEW

XTIVIA offers a full suite of Liferay services—including architecture, consulting, staffing, tuning, and end-to-end project implementation. With more than 15 years of experience in portals, content management, collaboration and enterprise integration, and an undisputed record of successful Liferay deployments since 2006, it's no wonder XTIVIA is the current and three-time winner of the prestigious Liferay North America Partner of the Year award.

On end-to-end projects, XTIVIA will work with you using a team approach that emphasizes transparency and ongoing Liferay knowledge transfer to your team. You will learn not just the how, but also the why behind key Liferay implementation choices on various topics— including identity management, SSO, personalization, enterprise integration, and more.

Our proven phased approach is designed to help your company realize ROI quickly while improving both self-service capabilities and end-user satisfaction. Our top-notch software practitioners, combined with our deep knowledge of enterprise portal solutions, helps us deliver a superior product—every project, every time.
